

Make a Wimpy Kid Bookmark

Bookmarks are great for helping to keep your place in the latest Wimpy Kid adventure – and they make nice presents for other book fans too! Follow our ten easy steps to learn how to make your own.

- 1 Cut out the bookmark.** Then glue it on to stiff card and cut round the edges. Don't worry if you don't have any card to hand – paper will be OK.
- 2 Think about your design.** You could feature Greg or another Wimpy Kid character, or draw one of your favourite scenes from the books. Sketch out in rough what you want to include and where before you complete your bookmark for real.
- 3 Draw or cut out.** You can sketch your own drawings. Or photocopy some of your favourites from the book, cut them out and stick them on to the bookmark.
- 4 Personalise your bookmark.** Write your name at the bottom, after 'This book belongs to'.
- 5 Add some decorations.** Sprinkle some glitter around the bookmark or stick on a few small beads to make it colourful.
- 6 Leave to set.** Wait until any glue or other sticky stuff you have used is dry.
- 7 Laminate.** If you have one at school or home, use a laminate machine to seal your bookmark. Then cut around the edges, leaving about half a centimetre gap in between. Take care: laminators get hot, so ask someone to help.
- 8 Make a hole.** Using a holepunch, make a little hole in the bookmark where shown.
- 9 Thread.** Feed some colourful ribbon, string or tassel through the hole and knot it.
- 10 Finished!** Now enjoy your next Wimpy Kid book without ever losing your place!
